

Definitions & Methodology Description

1. Composite Indices

The secondary in-depth analysis of 2022 census data creates two composite indices namely, **Spatial Deprivation Index (SDI)** and **Progress Index (PI)**. SDI summarizes selected indicators as at 2022 in one index. It is a multi-dimensional poverty index that combines key social indicators into a composite deprivation/poverty index to identify the most deprived areas and guide interventions. On the other hand, PI is a composite indicator that shows the progress made from 2012 to 2022. Information from the composite indicators may be used to facilitate geographical targeting to alleviate the situation of children, adolescents and women.

2. Ranking

For every individual or composite indicator, a rank is provided for each district to give a sense of how well it performs compared to its peers. It provides very useful information on where the district stands in the country socio-economically. The best performing district is ranked 1 while a rank of 90 is allocated to the least performing district.

KEY: Quintiles

Least performing ← → Most performing

Q1 Q2 Q3 Q4 Q5

3. Quintiles

For each indicator, a district is placed into any of 5 groups or quintiles depending on how well it performs. Quintile 1 (Q1) represents the least performing group of districts, while the group of second least performing districts is placed in Q2. Districts that show an average performance are grouped into Q3 and so on. Districts that show top performance are placed in Quintile 5 (Q5). Quintiles are color-coded and are shown alongside the rank in the indicator tables inside the profile. The color-coding of quintiles from red to green provides a quick way of knowing how well a district performed in the census (see below). Where it is neither good nor bad to have higher/lower values (neutral indicators), a light blue to dark blue coloring is used to show intensity or magnitude.

In-depth Analysis of 2022 Population and Housing Census: District Profiles

Kadoma Urban District

The district profiles are a product of the in-depth analysis of the 2022 Population and Housing Census. In support of the National Development Strategy 1 (NDS1), the profiles summarize and describe the demographic, social and economic characteristics of the population, and provide a one-stop shop for geographically disaggregated information to policy makers. They present child indicators across various themes. Using maps, the profiles also show the spatial distribution of deprivation as at 2022, and progress registered from 2012 to 2022.

Selected Indicators		Value	Rank	Quintile
DEMOGRAPHY				
Total Population		117381	50	
Proportion of Child Population (%)		42.8	23	
Proportion of Youth, 15-24 (%)		20.5	20	
Proportion of Children below Five (<5) (%)		13.2	34	
Proportion of Women in Child Bearing Age, 15-49 (%)		29.2	27	
Proportion of Urban (%)		100		
Average Household Size		3.8	36	
Proportion of Primary School Age Population, 6-12 (%)		17	73	
Proportion of Lower Secondary School Age Population, 13-16 (%)		7.9	11	
Proportion of Population, 5-9 (%)		12.3	69	
Proportion of Population, 10-14 (%)		11.5	71	
Proportion of Population, 15-19 (%)		10.3	52	
Proportion of Population, 20-24 (%)		10.4	16	
Proportion of Emigrants (%)		4.7	39	
MORTALITY				
Under 5 Mortality Rate (USMR), Direct Method		32.4	35	
Number of Yearly Under 5 Deaths (USMR times Births/1000)		119	43	
Proportion of Death Registered (%)		85.8	10	
FERTILITY				
Total Fertility Rate (TFR)		3.3	26	
Age-Specific Fertility Rate (ASFR), 15-19		70.2	26	
Crude Birth Rate (CBR)		31.2	65	
Number of Yearly Births (Population times CBR)		3668	45	
Proportion of Female Teenage Marriages (%)		15.5	39	
EDUCATION				
Early Child Education (ECE) Net Attendance Ratio, 4-5		67.9	32	
Primary Net Attendance Ratio, 6-12		91.3	27	
Secondary Net Attendance Ratio, 13-16		75.8	20	
Proportion of 6-16 Out of School (%)		8.4	28	
Proportion of 10-14 Never Been to School (%)		0.5	18	
Youth School Attendance, 15-19 (%)		50.5	43	
Youth Literacy, 15-24 (%)		98	15

Indicator Definitions

SECTION	INDICATOR NO.	INDICATOR NAME	INDICATOR DESCRIPTION	INDICATOR NUMERATOR	INDICATOR DENOMINATOR
Demography	1	Total Population	The total population of the province/district		
	2	Proportion of Child Population (<18)	The number of the population considered children (0-17 year olds)	Children less than 18 years	Total population in the province/district
	3	Proportion of Youth Population (15-24)	The total youth population (15-24 years)	Total number of people aged 15-24 years	Total population in the province/district
	4	Proportion of Under Five (<5) Years of Age	The number of the population under the age of 5	Total number of people under 5	Total population in the province/district
	5	Proportion of Women in Childbearing Age (15-49)	The number of women in aged 15-49	The number of women in aged 15-49	Total population in the province/district
	6	Proportion Urban	The total population of the province/district living in the Urban sector	Total living in urban sector	Total population in the province/district
	7	Average Household Size	The average household size in the province/district		
	8	Proportion of Primary School Age Population 6-12	The number of primary school population (6-12 years)	Children 6-12 years	Total population in the province/district
	9	Proportion of Lower Secondary School Age Population 13-16	The number of lower secondary school population (13-16 years)	Children 13-16 years	Total population in the province/district
	10	Proportion of Population 5-9	The number of the population aged 5-9 years	Total number of people aged 5-9 years	Total population in the province/district
	11	Proportion of Population 10-14	The number of the population aged 10-14 years	Total number of people aged 10-14 years	Total population in the province/district
	12	Proportion of Population 15-19	The number of the population aged 15-19 years	Total number of people aged 15-19 years	Total population in the province/district
	13	Proportion of Population 20-24	The number of the population aged 20-24 years	Total number of people aged 20-24 years	Total population in the province/district
	14	Proportion of Emigrants	The number of population who emigrated	Total number of people who emigrated	Total population in the province/district
Mortality	15	U5MR (Direct Method)	This is the probability of dying between birth and the fifth birthday, expressed as births per 1000 live births		
	16	Number of Yearly Under Five Deaths	The number of yearly under five deaths		
	17	Proportion of Death Registrations	The number of deaths registered	The number of deaths registered	Total deaths
Fertility	18	Total Fertility Rate (TFR)	This indicates how many children women give during their fertile years if present birth rates remain constant and no woman dies between the ages 15-49		
	19	Age-Specific Fertility Rate (ASFR) 15-19 (Teenage Fertility)	The number of live births in a given year per 100 women of a certain age out of the total number of women of that specified age group		
	20	Crude Birth Rate (CBR)	The total number of live births per year in a population and is a rough measure of fertility and it does not take into account the sex or age structure of the population		
	21	Number of Yearly Births	The number of yearly births		
	22	Female Teenage Marriage Rate	Proportion of females aged 15-19 who are married	Number of females aged 15-19 who are married	Total female population aged 15-19
	Education	23	Pre-School/ECE Net Attendance Ratio (4-5)	The total number of children aged 4-5 attending pre-school/ECE at a given time	Total number of children aged 4-5 attending school
24		Net Attendance Ratio (NAR) For Primary Education (6-12)	The total number of children aged 6-12 attending primary school at a given time	Total number of children aged 6-12 attending school	Total population aged 6-12
25		Net Attendance Ratio (NAR) For Secondary Schools (13-16)	The total number of children aged 13-16 attending secondary school at a given time	Total number of children aged 13-16 attending school	Total population aged 13-16
26		OOSC, Out of School Children Rate for Children 6-16	The total number of children aged 6-16 out of school at a given time	Total number of children aged 6-16 out of school	Total population aged 6-16
27		Never Been to School Ratio (Children 10-14)	The total number of children aged 10-14 who have never been to school	Total number of children aged 10-14 never been to school	Total population aged 10-14
28		Youth School Attendance (15-19)	The total youths aged 15-19 attending school at a given time	Total population aged 15-19 attending school	Total population aged 15-19
29		Youth Literacy (15-24)	The number of people aged 15-24 years who completed at least grade 3 of primary education	The number of people aged 15-24 years who completed at least grade 3 of primary education	Total population aged 15-19
Child Protection	30	Disability Prevalence in Children 5-17 Years	The number of children aged 5-17 years with a disability	Total number of children aged 10-14 with a disability	Total population aged 5-17
	31	Proportion of Children < 5 With Birth Registration	The number of children <5 who possess a birth certificate	Total number of children under 5 who possess a birth certificate	Total population under 5 years
	32	Proportion of Working Children (10-17) Male	The number of male children aged 10-17 who work for remuneration	Total number of male children aged 10-17 working	Total male population aged 10-17
	33	Proportion of Working Children (10-17) Female	The number of female children aged 10-17 who work for remuneration	Total number of female children aged 10-17 working	Total female population aged 10-17
	34	Proportion of Youth Unemployment (18-24)	The total number of youths aged 18-24 who are unemployed	Total population aged 18-24 unemployed	Total population aged 18-24
Living Conditions	35	Proportion of Youth Unemployment (15-24)	The total number of youths aged 15-24 who are unemployed	Total population aged 15-24 unemployed	Total population aged 15-24
	36	Proportion of Households with Unimproved Floor	The number of households with unimproved floor	Number of households with unimproved floor	Total number of households
	37	Proportion of Households Without Source of Electricity	The number of households without a source of electricity	Number of households without source of electricity	Total number of households
	38	Proportion of Households Using Solar as Source of Lighting	The number of households using solar as a source of lighting	Number of households using solar for lighting	Total number of households
	39	Proportion with Access to Internet at Home	The number of households with access to internet at home	Number of households with internet at home	Total number of households
WASH	40	Proportion of Households Using Basic Drinking Water Services	Total number of Households using basic drinking water services	Number of households using basic drinking water services	Total number of households
	41	Proportion of Households Using Limited Drinking Water Services	Total number of Households using limited drinking water services	Number of households using limited drinking water services	Total number of households
	42	Proportion of Households Using Unimproved Drinking Water Services	Total number of Households using unimproved drinking water services	Number of households using unimproved drinking water services	Total number of households
	43	Proportion of Households Using Surface Water for Drinking	Total number of Households using surface water for drinking	Number of households using surface water for drinking	Total number of households
	44	Proportion of Households Using Basic Sanitation Service	Total number of Households using basic sanitation service	Number of households using basic sanitation service	Total number of households
	45	Proportion of Households Using Limited Sanitation Service	Total number of Households using limited sanitation service	Number of households using limited sanitation service	Total number of households
	46	Proportion of Households Using Unimproved Sanitation Services	Total number of Households using unimproved sanitation services	Number of households using unimproved sanitation services	Total number of households
	47	Proportion of Households that Rely on Open Defecation	Total number of Households that rely on Open Defecation	Number of households that rely on Open Defecation	Total number of households
	48	Proportion of Households Using Basic Handwashing Service	Total number of Households using basic handwashing service	Number of households using basic handwashing service	Total number of households
	49	Proportion of Households Using Limited Handwashing Service	Total number of Households using limited handwashing service	Number of households using limited handwashing service	Total number of households
	50	Proportion of Households Using No Facility for Handwashing	Total number of Households using no facility for handwashing	Number of households using no facility for handwashing	Total number of households
	51	Proportion of Households Disposing Solid Waste by Formal Ways	Total number of households disposing solid waste by formal ways	Number of households disposing solid waste by formal ways	Total number of households
