

26th March 2025

WEIGHTED CIVIL ENGINEERING MATERIALS PRICE INDEX 2025 (APRIL=100)

Weighted Civil Engineering Material Price Index

The Weighted Civil Engineering Material Price Index (CEMPI) was **116.55** in February 2025 and **114.76** in January 2025.

Month-on-month Rate of Change

The month-on-month rate of change in February 2025 was **1.6** percent, shedding 0.7 percentage points on the January 2025 rate of **2.3** percent.

This means that prices as measured by the all-items Weighted Civil Engineering Material Price Index (CEMPI), increased at an average of 1.6 percent from January 2025 to February 2025.

The month-on-month rate of change is given by the percentage change in the index of the reference month compared with the index of the previous month.

The products that contributed to the increase in the index in February 2025 were diesel, joint compound and deformed steel. The products that did not contribute significantly to the increase or decrease of the month-on-month rate of change were sluice valve and water stops.

Methodology

The Weighted Civil Engineering Material Price Index (CEMPI) is obtained by measuring combined price changes of goods in both the USD and ZWG aggregated geometrically.
