

27th February 2025

USD CIVIL ENGINEERING MATERIALS PRICE INDEX JANUARY 2025 (JAN 2023=100)

USD Civil Engineering Material Price Index

The USD Civil Engineering Material Price Index (CEMPI) was **97.08** in January 2025 and **96.55** in December 2024.

Month-on-month Rate of Change

The month-on-month rate of change for the USD Civil Engineering Material Price Index (CEMPI) was **0.5** percent in January 2025, gaining 0.1 percentage points on the December 2024 rate of **0.4** percent.

This means that prices as measured by the all-items USD Civil Engineering Material Price Index (CEMPI), increased at an average of **0.5** percent from December 2024 to January 2025.

The month-on-month rate of change is given by the percentage change in the index of the reference month of the current year compared with the index of the previous month.

The product that contributed to the increase of the index in January 2025 was deformed steel and joint compound. The products that did not contribute significantly to the increase or decrease of the month-on-month rate of change were asbestos pipes and bitumen. The products that contributed to the decrease of the index were diesel and shutter boards.

Year-on-Year Rate of Change

The year-on-year rate of change for the USD Civil Engineering Material Price Index (CEMPI) was **0.7** percent in January 2025.

This means that prices as measured by the all-items USD Civil Engineering Material Price Index (CEMPI), increased at an average of **0.7** percent between January 2024 to January 2025.

The year-on-year rate of change is given by the percentage change in the index of the reference month of the current year compared with the index of the same month in the previous year.

Methodology

The USD Civil Engineering Material Price Index (CEMPI) is obtained by measuring price changes of goods in USD.
