

27th February 2025

WEIGHTED CIVIL ENGINEERING MATERIALS PRICE INDEX JANUARY 2025 (APRIL=100)

Weighted Civil Engineering Material Price Index

The Weighted Civil Engineering Material Price Index (CEMPI) was **114.76** in January 2025 and **112.17** in December 2024.

Month-on-month Rate of Change

The month-on-month rate of change for the Weighted Civil Engineering Material Price Index (CEMPI) was **2.3** percent in January 2025, shedding 0.4 percentage points on the December 2024 rate of **2.7** percent.

This means that prices as measured by the all-items Weighted Civil Engineering Material Price Index (CEMPI), increased at an average of 2.3 percent from December 2024 to January 2025.

The month-on-month rate of change is given by the percentage change in the index of the reference month of the current year compared with the index of the previous month.

The products that contributed to the increase in the index in January 2025 were joint compound and deformed steel. The products that did not contribute significantly to the increase or decrease of the month-on-month rate of change were steel pipes and river sand.

Methodology

The Weighted Civil Engineering Material Price Index (CEMPI) is obtained by measuring combined price changes of goods in both the USD and ZWG aggregated geometrically.
